RE: PABCO® Gypsum Building Product Disclosure and Optimization—Sourcing of Raw Materials

PABCO® Gypsum operates two gypsum panel manufacturing plants in the United States at the addresses below:

- 8000 E Lake Mead Blvd.  
Las Vegas, NV 89115  
United States
- 37851 Cherry St  
Newark, CA 94560  
United States

Our Las Vegas facility utilizes naturally occurring gypsum mined from our adjacent mine and our Newark facility utilizes naturally occurring gypsum outsourced from an external mine. Our 100% recycled paper for the facings is sourced from PABCO® Paper located at 4460 Pacific Blvd in Vernon, CA.

5/8" PABCO FLAME CURB® Type X is manufactured using 1% post-consumer and 10% pre-consumer recycled content, including the 100% recycled paper used for the face and back of the wallboard.

Please contact PABCO® Technical Services for more information.

Thank you.
