

## **PABCO® Gypsum Claims Gold and Platinum ADEX Awards**

### **QuietRock products win first awards of 2015**

RANCHO CORDOVA, CA – April 2, 2015 – PABCO® Gypsum has won multiple Awards for Design Excellence (ADEX). In the Building Materials category, PABCO's QuietRock® ES won a Gold award and QuietRock® ES Mold Resistant (ESMR) took the Platinum award. Other Quiet® products, QuietPutty® and QuietSeal® Pro, were recognized as finalists.

ADEX is the largest and most prestigious awards program for product and project design in the industry and is sponsored by *Design Journal* magazine which is the international trade resource for interior designers, architects and facility managers since 1988. This is the first time PABCO Gypsum has won recognition from the Awards for Design Excellence program.

"We are very proud that our products have earned this type of recognition," stated Ryan Lucchetti, president of PABCO Building Products. "QuietRock ES is the most advanced sound damping gypsum panel of its kind. Along with its outstanding STC results and type X fire ratings, its patented EZ-Score and Snap technology allows for easier installation than alternatives. QuietRock ESMR has all the characteristics of standard QuietRock ES along with mold resistance. We are humbled and excited by the recognition of these products by ADEX."

#### **About PABCO® Gypsum**

A leading manufacturer of wallboard in the U.S. since 1972, PABCO® Gypsum is a division of PABCO® Building Products LLC, one of several subsidiaries that make up the Pacific Coast Building Products family of companies, serving customers coast-to-coast. PABCO Gypsum's complete range of products incorporates numerous proprietary and/or patented fire, water, and mold resistant technologies. QuietRock®, the first and most technically advanced sound reducing drywall and accessories, became a part of the PABCO gypsum family in August 2013. PABCO Gypsum plants in Newark, CA and Las Vegas, NV have combined capability to manufacture over 1.65 billion square feet of board annually.
